

An Invitation to “Innovation & Design Education” WEBINAR

(IDEW)

1. Basic Information

(1) About the IDEW

Under China’s Innovation & Development Strategy and The Belt & Road Initiative, IDEW is initiated by Smart Learning Institute of Beijing Normal University. The IDEW project is held every three months for three days, 1.5 hours a day. And there will be lectures from 4 different countries sharing their stories via the form of online video. It will exchange and share the valuable things worth spreading in the fields of education, design, humanity, etc. And a concise and efficient platform will be offered to people focusing on innovation practices, action plans and cooperation opportunities in the future.

(2) About the Speaker

Prof. Kekang He, Professor of School of Educational Technology, Beijing Normal University, Director of the Modern Educational Technology Institute and Honorary Professor of Northeast Normal University. He has engaged in the research of ICT in education for a long time, and gradually created a new family education theory in creative thinking theory, new theory of children's thinking development, constructive teaching design theory, etc.

(3) Theme

In June, the theme of the IDEW is **Open Education and Future Creators in Intelligence Era**.

(4) Background

In the intelligence era, the emerging information technology (IT) has been rapidly applied in people’s work, study, life and other fields, especially in the field of education. IT mainly encompasses four aspects: Big Data, Cloud Computing, Artificial Intelligence and Internet + Education. IT has exerted a profound influence on the deepening reform of education at all levels and of all types. Now, under the momentum of the emerging IT, the transformation from “digital campus” to “smart campus” is well underway.

2. Date

From June 27th, 2018 (10:00-10:30 a.m., Beijing Time)
